Aquaporins and Vasopressin Signaling in Kidney Health and Disease

Dennis Brown, PhD
Guest Editor

TABLE OF CONTENTS

- 215 Aquaporins and Vasopressin Signaling in Kidney Health and Disease: Introduction
Dennis Brown
- 217 Dissecting the Roles of Aquaporins in Renal Pathophysiology Using Transgenic Mice
A.S. Verkman
- 227 Dysregulation of Renal Aquaporins and Epithelial Sodium Channel in Lithium-Induced Nephrogenic Diabetes Insipidus
Jakob Nielsen, Tae-Hwan Kwon, Birgitte Mønster Christensen, Jørgen Frøkiær, and Søren Nielsen
- 245 Vasopressin Receptor Mutations in Nephrogenic Diabetes Insipidus
Daniel G. Bichet
- 252 Aquaporin 2 Mutations in Nephrogenic Diabetes Insipidus
Anne J. M. Loonen, Nine V. A. M. Knoers, Carel H. van Os, and Peter M. T. Deen
- 266 Bypassing Vasopressin Receptor Signaling Pathways in Nephrogenic Diabetes Insipidus
Richard Bouley, Udo Hasler, Hua A. J. Lu, Paula Nunes, and Dennis Brown
- 279 Vasopressin Antagonists in the Treatment of Water-Retaining Disorders
Sumit Kumar and Tomas Berl
- 289 Vasopressin and Aquaporin 2 in Clinical Disorders of Water Homeostasis
Robert W. Schrier
- 297 Aquaporin 2 and Apical Calcium-Sensing Receptor: New Players in Polyuric Disorders Associated With Hypercalciuria
G. Procino, L. Mastrofrancesco, A. Mira, G. Tamma, M. Carmosino, F. Emma, M. Svelto, and G. Valenti
- 306 Vasopressin Antagonists in Polycystic Kidney Disease
Vicente E. Torres

On the Cover: AQP2 trafficking in principal cells. (See article by Bouley et al, p. 267.)
